

# ITCAPITAL

## IT-Company

International technology company - for the development of modern Internet technologies

## Our principle

“Making the result better than yesterday, we create the technology of the future.”

# ITCAPITAL

## International company

Our customers work with us from all over the world.

We work in the 24/7/365 format, so we are always in touch in any time zone.

## Time value

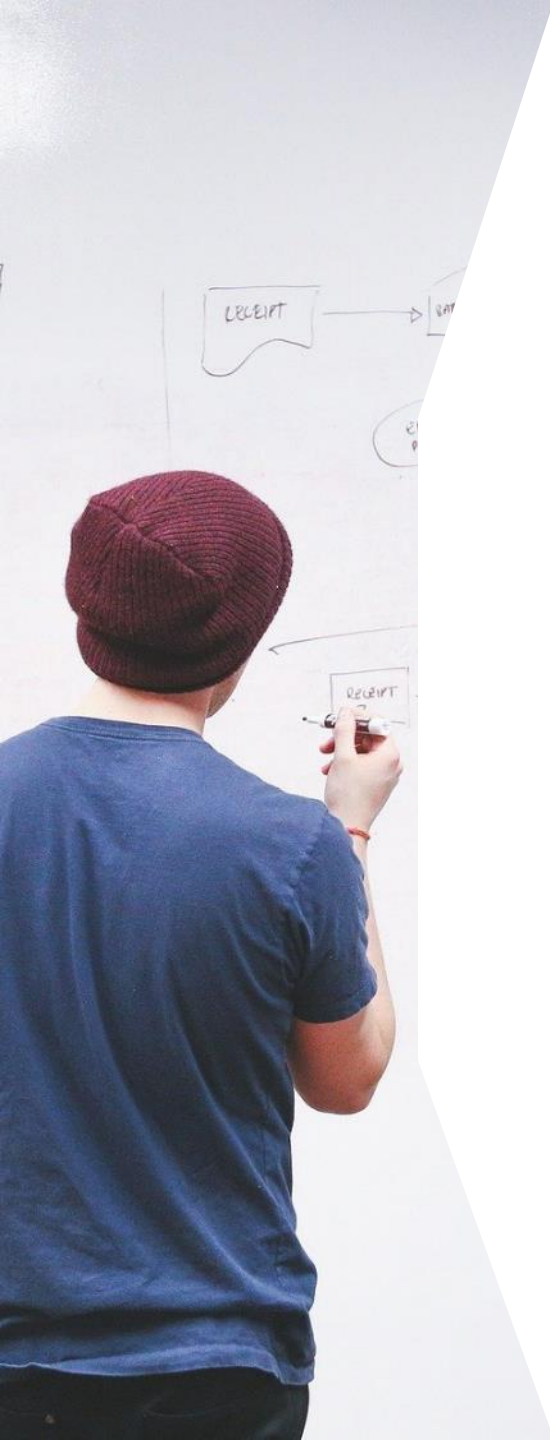

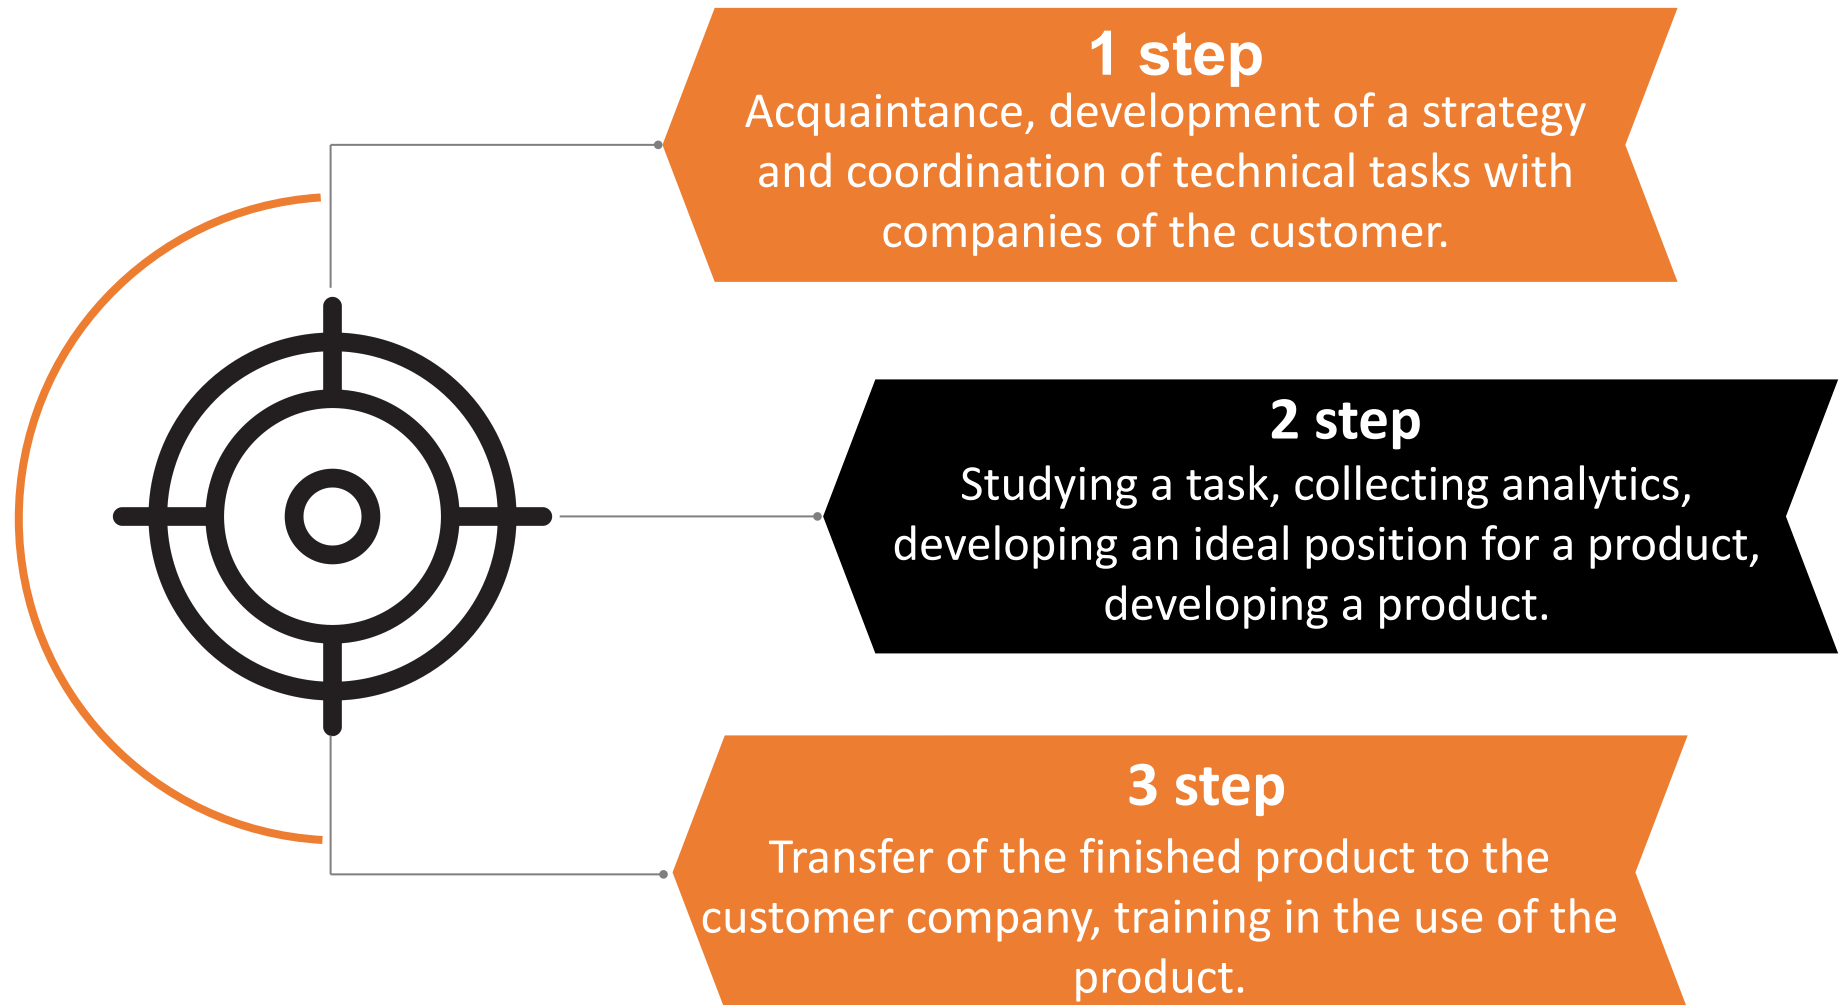

Our friendly team works on systematically optimized processes and completes projects on time or earlier.

## To every project with a soul

Our team is built on the principle, first of all, of a good person, and then of everything else. Therefore, our team creates such quality products with a clear conscience.

# How we are working?

# What services do we provide?

01

## Website development

Integrated development of sites of any complexity (one-page site, multi-page or online store)

02

## IOS - Android

Mobile application development for iOS and Android operating systems

03

## Marketing

Setting up SEO, contextual advertising on Google

04

## Software development

Development of large and complex software.

05

## AI - intelligence

Creation of artificial intelligence, its training and implementation.

06

## VR / AR - Technology

Development of virtual and augmented reality technologies.

# Recent work of our team
